DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

2. Claims 1-6,9, 11-14, and 16-17,19 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Sparks. Sparks shows the use of vertical extending members (101,102) that are located on a support and which are inherently flexible as the back support conforms to the back of the user.
3. Claims 1-8, 11-14, and 16 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Valiquette et al. Valiquette et al shows the use of vertical extending members (57-61) that are located on a support shell and which are inherently flexible as the back support conforms to the back of the user.

Allowable Subject Matter

4. Claim 10 is allowed over the prior art made of record.

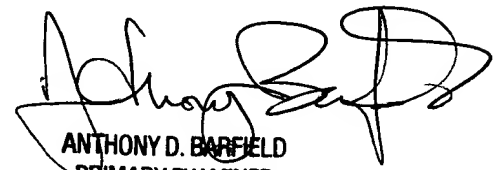

Claims 15,18,20-21 are objected to as being dependent upon a rejected base claim, but would be allowable over the prior art made of record if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
